

Lucy and Lorna

These two twins are Lucy and Lorna. Lucy was born first and has the smaller forehead spot. Both of these girls are well accustomed to people, and like to be around them. At the moment they'd prefer for you to keep a distance of about four feet, but they'll come around if you work with them. They are inseparable, we won't sell them individually.

Their dam is Suzie, a big girl who won a ribbon at National Western Stock Show against tough competition. Suzie is the daughter of HSY Batu, a bull that we sold in 2012 as a yearling. We've regretted letting Batu go, and have traded for and purchased some of his offspring – including Suzie. Suzie's mom died while Suzie was young, and before her maternal parentage could be verified by DNA. So, Suzie is in the odd position of only having a recorded paternal pedigree.

Suzie was in the Ambrose/Percy breeding group during the summer of 2019, where Ambrose was the dominant bull. The twins are almost certainly his daughters. The DNA submission will sort this out with certainty.

The twins have had their DNA submitted for registration, but the results are not back yet. Their registrations are expected to be complete during February 2021.

We are asking \$3000 for the pair.

Ambrose Pedigree:

- LDR Klondike
 - LDR Alaska
 - FW Escalade
 - FW PRINCE ALLANTE
 - T D029
 - LDR WILDBERRY
 - LDR White Gold J88
- HSY Amy
